powered by partnerships

# 6 Reasons to Choose AAL

## Unparalleled Industry Recognition

Harnessing a strong safety record and reputation for dependability, AAL is a trusted partner of global industry and has won more international awards for its service ethics and quality than any other carrier in our sector:

*'Innovation & Digital Award'*  
(World Energy Supply Chain Awards 2024)

*'Ship Operator of the Year'*  
(Heavy Lift Awards 2019, 2022, 2023, 2024)

*'Best Shipping Line Project Cargo'*  
(AFLAS Awards 2016 to 2024)

*'Best Logistics 2017'*  
(Lloyd's List Asia Pacific Awards)

*'Breakbulk Operator of the Year 2016'*  
(Lloyd's Loading List Global Freight Awards)

*'Excellence in Project Cargo 2016'*  
(Australia Shipping Awards)

## Around the World Coverage

AAL's fleet, cargo handling expertise and global network (with localised 24/7 customer support) provides our customers with seamless and regular multipurpose heavy lift cargo services between Oceania, Asia, India, Middle East, Europe, Africa and the Americas.

With flexibility in mind, we offer a unique 'total' MPP solution of three complementary shipping services that can be combined as required:

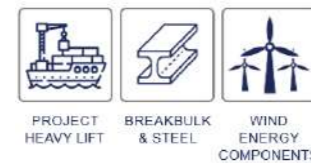

- i. Tailor-Made Tramp Chartering Solutions
- ii. Scheduled Monthly Liner Services
- iii. Regular Fixed Trade Routes

## Fleet Control & Diversity

AAL's growing fleet is over 90% fully owned and comprises various classes of premium project heavy lift tonnage. It is also one of the sector's largest and youngest, with multiple vessels featuring an 800-tonne max lift and cargo intake capacity of over 90,000 ft.

We carry it all for our customers, with significant expertise in parcelling cargoes to offer optimum frequency and economies of scale on every sailing - no matter what your cargo size.

## Sustainability & Good Governance

Our global operations on land and sea are carefully monitored around-the-clock and governed by the highest standards of sustainability.

AAL has established a range of QHSE and ESG processes that enable us to: meet the highest safety and efficiency standards in our operations to; care for our people and partners; comply with complex legal legislation in every market in which we operate; and build a leading company culture that engages all entities in a 'zero harm, zero damage' charter.

## Powered By People

Our multilingual Chartering, Commercial and Operations Teams work locally with customers to plan, schedule and execute each sailing and provide 24/7 management and oversight during the entire lifecycle of every cargo we handle.

We employ top Marine Engineers to create solutions that can deliver on even the most difficult project demands, with numerous 'firsts' and award-winning operations to their credit.

This cargo handling expertise, combined with an unparalleled knowledge of our fleet's stowage and lifting capabilities - as well as a deep understanding of our customer needs - allows AAL to push boundaries and attain the highest level of time and cost efficiency.

## Optimised Returns & Performance

AAL has a proud history of operational performance, dedication to our customers and delivering value even in the most challenging times.

Each sailing we undertake is monitored closely by our state of the art 'Performance Optimisation Control Room (POCR)' facility that harnesses digital fuel consumption, routing and weather technologies to enable real-time oversight and problem solving that is essential to maximising safety, efficiency and customer returns.
