

SAFETY POLICY

Safety is of the highest priority for Asia Atlantic Airlines as a part of our corporate value and must never be compromised. Asia Atlantic Airlines believes in providing all employees and customers with the safe and healthy environment and all employees must comply with this policy.

Asia Atlantic Airlines is committed to the establishment and development of a company SAFETY, SECURITY and QUALITY management system that achieves continued compliance with all current applicable legislation and company requirements and provides the highest standards of flight safety and airworthiness.

It is our aim to integrate Safety and Quality principles into everything we do and the procedures used by flight and cabin crews, technical and ground operations staff and all others involved in safety sensitive areas are fundamental to fulfilling this policy.

We are committed to ensure that all our activities worldwide are conducted in accordance with industry best practice, thus ensuring the health and safety of our staff, customers and all others affected by our operation.

A positive safety culture, or "JUST CULTURE" principles must be generated from the "top down" and relies on a high degree of trust, respect and communication between staff and management. All staff must believe without doubt that they will be supported in any decision made in the interest of safety and they must also believe that breaches of safety standards will not be tolerated. It is imperative that there is uninhibited reporting of hazards, incidents and occurrences which compromise, or may compromise, the safe conduct of all Asia Atlantic Airlines operations.

To this end every employee is responsible for communicating information that may affect safety.

It is the responsibility of the Asia Atlantic Airlines President and Nominated Post Holders to maintain continued compliance with legislation and company standards. All ASIA ATLANTIC AIRLINES staff shall comply with all policies and processes set out in the Safety, Security and Quality Management Systems.

I am committed as President of Asia Atlantic Airlines to the continual improvement of the management system and will ensure it is adequately financed, resourced, reviewed and revised as appropriate to ensure safe and secure operation.
